

# Stop an Overdose SAVE A LIFE!

If you or someone you know uses opioids such as heroin or misuses prescription pain medications, please inquire with Tuscola Behavioral Health Systems (TBHS) for information on how to obtain a **FREE** lifesaving NARCAN kit.

When a person overdoses on opioids, they stop breathing. NARCAN may reverse the overdose, allowing the victim to breathe again. It is a safe antidote for an opioid overdose, and does not hurt a person if they have not taken opioids. The person **MUST** receive emergency medical treatment following the use of Narcan.

#### OPIOIDS INCLUDE THE FOLLOWING:

GENERIC NAME	BRAND NAME
Buprenorphine	Suboxone, Subutex, Zubsolv, Bunavail, Butrans
Codeine	Tylenol with Codeine, Tylenol #3
